One at a time, enter your YEAR, MAKE, MODEL or FRAM part number, and we'll begin searching our database for compatible parts. Four Cylinder Petrol GH engine. Isuzu's first petrol engines were license built Hillman units for the locally assembled Minx, from 1953. Called the GH10 it has a bore of 65 mm (2.56 in) and a stroke of 95 mm (3.74 in) for a displacement of 1,260 cc (76.9 cu in). Power is 37.5 PS (28 kW). DESIGNED TO OUT LIVE THE LIFE OF THE ENGINE. A high performance speed control system results when a GAC actuator is installed on an engine and electronically connected to compatible GAC governing system components. The design baseline for GAC actuators incorporates fast responses, multi-voltage usage, and proven reliability to allow for more precise control.
